Town of Brooklyn, Meeting notes

Regular Town Board Meeting – April 11, 2006

Items receiving action on 4/11 were as follows: Amy Polcyn, re-appointed to the Caestecker Library Board. Building Inspector, Jerry Buhrows submitted a proposal for an expanded UDC code, which would cover Commercial Buildings, and updated fee schedule. The proposed code will now cover manufactured homes, and homes receiving alterations on pre-1980 portions. This was held for decision until the May 9 meeting.

The Town & City of Green Lake will enter into an agreement providing for mowing & snow plowing at the Fire House.

Chairman Wuest met with the GL Sanitary District on April 18, and gave an update on the feasibility study concerning Section #8 of the District which lies in the Town. More info will follow.

New alternates were appointed to Board of Review; Larry Miller, Betsey Miller, and Mark Lindquist. The Plan Commission received two new members; Harley Reabe and Roger Priebe, Jr.

Discussion was held on Road Projects for 2006. Chairman Wuest proposes a complete re-do of Town Line Rd., ditches & culverts in Woodland Circle. Also crack-filling on selected other roads. Road Inspection is tentatively set for May 18.

Annual Elector meeting is set for April 13 - Plan Commission will next meet on May 4.

Town of Brooklyn Annual Meeting met April 13, 2006 then adjourned until April 27.

Items discussed at the 4/27 meeting included 2006 budget. Also of interest was a letter received from 1st National Bank of Berlin. The Bank gave notice to the Town that they would like the Town to vacate office space currently being used by May 1, 2007. The Bank is planning to expand their own offices here. Discussion centered on the Town seeking to purchase property and build a Town Hall, possibly finding an existing building that would be suitable, and the possibility that a building project might not be completed by May 1, 2007. In that case a rental place would need to be secured temporarily. A vote taken, decided the Town would appoint a committee to move quickly ahead on gathering information on possible sites, space needs, and if there was anything available for purchase. Committee will be appointed at the May 9 meeting. Also discussed was the possibility of making the Town Board a 5 person board, not 3. This will be brought back for further discussion.
